

El Grupo Youth Cycling – 2004 - 2019

History of Organization: “It all began in 2004 by founders Ignacio Rivera de Rosales and Daniela Diamente through teaching a class on riding bicycles at City High School. We had eight non-athletic teenagers (half male, half female) and recycled bikes. It took us nine months to prepare for and accomplish a 27-mile event. The ride took us almost three hours, and for every kid that was the greatest physical achievement of

his/her life. Shortly thereafter, youth asked if they could ride more often and work towards a bigger goal. We had no jerseys, shorts, or cycling shoes, but we grew stronger with every mile. From there, per youth riders’ desires, El Grupo blossomed and continues to grow.”

Historical highlights include:

- 2005, Spring: Youth selected the name “El Grupo” = the group in Spanish; riding & outreach at core from the start, collaborating with BICAS and Pima County DOT
